PROFESSIONAL SUMMARY

Design Director with 15+ years leading enterprise UX strategy for platforms serving 50K+ users, building high-performance teams and delivering measurable improvements in usability, adoption, and product ROI. Specializes in translating complex business requirements into scalable, user-centered design systems for large-scale web and mobile products. Expert in stakeholder alignment, design governance, and Agile delivery across multi-region business units.

PROFESSIONAL EXPERIENCE

Associate Design Director | Tata Consultancy Services, Chennai *Sep 2019 – Present*

- Built and scaled a multidisciplinary UX team of 6+ designers supporting 4 enterprise products used by 50K+ global users, improving design delivery efficiency by ~35%.
- Own and execute end-to-end design strategy for large-scale enterprise web and mobile products supporting multi-region business units.
- Led UX, UI, and brand initiatives across 4+ product lines, driving measurable improvements in usability scores and customer experience metrics.
- Partnered with Product, Engineering, and Business stakeholders to align design outcomes with organizational KPIs and Agile delivery timelines.
- Established design governance through structured reviews, usability testing cycles, and executive stakeholder presentations — driving brand consistency across all platforms.
- Championed design system adoption, reducing UI inconsistency and cutting UI development effort by an estimated 25%.

Senior UX Designer | India Pistons Ltd., Chennai *Apr 2015 – Aug 2019*

- Architected user-centered digital interfaces, dashboards, and internal tools across 3+ enterprise platforms, improving system usability scores by ~40% and increasing internal user adoption by 30%.
- Spearheaded digital transformation initiatives across 5+ cross-functional workflows, reducing process cycle time by ~20% and eliminating key operational friction points.
- Drove continuous usability improvement programs through 10+ iterative testing cycles and data-driven design enhancements, directly improving task completion rates on business-critical platforms.

Lead UI/UX Designer | IV Support Technologies India Pvt. Ltd., Chennai *Sep 2013 – Jan 2015*

- Owned UI/UX and visual design strategy for multiple client-facing digital products across diverse industry verticals.
- Defined and enforced visual design standards and brand guidelines, ensuring consistency and quality across all deliverables.
- Mentored junior designers and coordinated with development teams to ensure design-to-development accuracy.

Senior Web / Graphic Designer | Knack Information Technologies Pvt. Ltd., Chennai *Sep 2012 – Sep 2013*

- Spearheaded end-to-end web, UI, and graphic design solutions across 10+ client projects spanning marketing, e-commerce, and enterprise domains.
- Partnered closely with developers to translate design concepts into production-ready, pixel-perfect assets, achieving zero design-to-dev revision cycles on major deliverables.

Designer | Provizant Information Network India Pvt. Ltd., Chennai *Jun 2010 – Sep 2012*

- Spearheaded design of visual and UI assets for digital and print platforms supporting branding and marketing campaigns for 8+ client accounts.

- Drove iterative usability improvements across multiple projects, incorporating structured user feedback loops that measurably enhanced end-user satisfaction.
